Company Overview

Dhanlaxmi India is evolved into various businesses, giving us wide experience in multiple business arenas. While export and manufacturing of chemicals is our primary business, we are also involved in the distribution of pharmaceutical products, with over 25 years of experience in the industry, we have established ourselves as a trusted and reliable distribution partner for some of India's largest pharmaceutical companies.

After finding success in pharma distribution, Dhanlaxmi India ventured into the manufacturing of Manganese Sulphate, with its first plant located in Chattral, India. There we have an annual production capacity of 2500 metric tons. With the booming requirement, we are already evaluating setting up a second manufacturing unit.

Inspired by our continued success, we have now directed our focus towards the export of various agro chemical products. With a dedicated team that has a vast experience in exports as well as agro chemicals, we are the perfect partners for companies that value service and quality.

Our Strength

- Tie-Ups with leading manufacturers.
- Vast network spanning all over the world.
